Introduction	9
1 Psychotherapy	11
2 Types of Psychotherapy	13
2.1 Behavioral Therapy	13
2.1.1 Methods of Treatment	13
2.1.2 Various Behavioral Therapy Techniques	14
2.2 Cognitive Therapy	15
2.3 Cognitive Behavioral Therapy (CBT)	17
2.3.1 What is CBT?	17
2.3.2 How Well Does CBT Work?	17
2.3.3 The Principles of CBT	19
2.3.4 Why Does CBT Work?	20
3 The Initial Interview	21
3.1 Talking to Patients	24
3.2 Understanding the Patient's Current Situation in Life and the Patient's Biography	25
3.2.1 Current Situation in Life	25
3.2.2 Links between Patient's Biography and Patient's Issues or Problems	27
3.2.3 Taking the Patient's History	28
3.3 End of Initial Interview	33
4 The Probationary Phase	37
Initial Exploration of the Patient's Problem	40
5 Analysis	45
5.1 Behavioral Analysis	45
5.2 Micro and Macro Analysis: An Overview	47
5.2.1 Micro Analysis: The SORKC Model	49
5.2.2 Micro Analysis: The Problem Analysis Model	52
5.2.3 Behavior Modification in Micro Analysis	54
5.2.4 Macro Analysis	56
5.3 Psychopathological Findings	62

6	Goal Setting	65
7	End of Therapy	77
7.1	Prognosis	77
7.2	Transfer to Daily Life and Consolidation	79
7.3	Relapse Prevention and Follow-up Care	80
7.4	Conclusion of Therapy	82
7.5	Process of Separation	84
7.6	Continuing Therapy: Application for Conversion or Continuation	85
8	Medication	87
8.1	Medications for PTSD	87
8.1.1	Antidepressants	87
8.1.2	Other Medications	88
8.2	Quiz	88
9	Trauma	91
9.1	Defining Trauma	92
9.2	Reacting to Trauma	93
9.2.1	Pre-event Factors	93
9.2.2	Event Factors	93
9.2.3	Post-event Factors	94
9.3	Psychoeducation	96
9.3.1	Intrusive Symptoms	96
9.3.2	Negative Mood	96
9.3.3	Avoidance Symptoms	96
9.3.4	Arousal Symptoms	97
9.4	Symptoms of PTSD	97
9.4.1	Depersonalization and Derealization	99
9.4.2	Case Hamid	99
9.4.3	Exercise PCL-5	100
9.5	Remembering Trauma	103
9.5.1	Implicit or non-declarative Memory	103
9.5.2	Short-term Memory	103
9.5.3	Psychoeducation Memories and Trauma	104
9.6	Safety	106
9.6.1	Types of Safety	106
9.6.2	Creating a Safe Place	107
9.7	Relaxation and Breathing Techniques	108
9.7.1	Deep Breathing (Exercise)	109
9.7.2	Progressive Relaxation	110

9.8	Quiz 1 PTSD	111
9.9	Exploration	111
9.9.1	Exposure Therapies	111
9.9.2	Reprocessing	112
9.9.3	Somatic Therapies	112
9.10	Associated Conditions of PTSD	113
9.11	Quiz 2 PTSD	113
10	Anxiety	115
10.1	Specific Phobia	117
10.2	Social Anxiety Disorder	112
10.3	Panic Disorder	113
10.4	Agoraphobia	118
10.5	Generalized Anxiety Disorder (GAD)	119
10.6	Quiz	120
11	Depression	121
11.1	Major Depressive Disorder	123
11.2	Persistent Depressive Disorder	123
11.3	Premenstrual Dysphoric Disorder (PMDD)	123
11.4	Specifiers for Depressive Disorders	124
11.4.1	Single Episode versus Recurrent Episode	124
11.4.2	Mild/Moderate/Severe	124
11.4.3	With Anxious Distress	124
11.4.4	With Melancholic Features	125
11.4.5	Physical Manifestation of Depression	125
11.4.6	With Atypical Features	125
11.4.7	With Peripartum Onset	125
11.4.8	With Seasonal Pattern	126
11.5	The Depression Scale	126
11.6	Quiz	127
12	Somatoform Disorders	129
12.1	Symptoms	129
12.2	Development	130
12.3	Maintenance	131
12.4	Quiz	131
13	Case Formulation	133
13.1	Aspects of Case Formulation	135
13.1.1	What problems need treatment (Axis I, Axis II)?	135
13.1.2	What Priorities does the Therapist have to set?	136

13.1.3	Which Therapeutic Setting is Suitable?	138
13.1.4	How can the Therapist Shape a Good Therapeutic Relationship?	139
13.1.5	What are Effective Guidelines to Understand, Foster and Support the Patient's Motivation for?	141
13.2	Example of a Case Report	143
14	Additional Information and Exercise: Narrative Transgenerational Therapy	153
14.1	Three Theoretical Frameworks of Transgenerational Traumata (TT)	153
14.2	Treatment	154
14.2.1	Exemplary Dialogue I	157
14.2.2	Exemplary Dialogue II: The First Imaginal Narrative Exposure on Patient's Own Trauma Event(s)	161
15	Answers to the Quizzes	165
15.1	Solutions and Suggestions for Initial Interview	165
15.2	Solutions and Suggestions for Probationary Phase	165
15.3	Solutions and Suggestions for Behavior Analysis	166
15.4	Solutions and Suggestions for Psychopathological Findings	166
15.5	Solutions and Suggestions for Goal Definition	167
15.6	Solutions and Suggestions for Prognosis	167
15.7	Solutions and Suggestions for End of Therapy	167
15.8	Solutions for Medication	168
15.9	PTSD I	168
15.10	PTSD II	169
15.11	Solution for Anxiety	170
15.12	Solution for Depression	170
15.13	Solution for Somatoform Disorders	170
16	Index	171
17	References	175
	Appendix	181
