1	Biomedical teleacupuncture between China and Austria using heart rate variability, part 1: Poststroke patients	1
1.1	Introduction	1
1.2	Subjects and methods	1
1.2.1	Patients	1
1.2.2	Biosignal recording and evaluation parameters	2
1.2.3	Acupuncture and procedure	4
1.2.4	Statistical analysis	4
1.3	Results	4
1.4	Discussion	7
1.5	Acknowledgments	10
1.6	References	10
2	Brain-modulated effects of auricular acupressure on the regulation of autonomic function in healthy volunteers	13
2.1	Introduction	13
2.2	Methods and subjects	14
2.2.1	A new system for ear acupressure (vibration stimulation)	14
2.2.2	Recording systems and evaluation parameters	15
2.2.3	Volunteers, acupuncture and procedure	16
2.2.4	Statistical analysis	17
2.3	Results	17
2.4	Discussion	23
2.5	Conclusion	26
2.6	Acknowledgments	26
2.7	References	26
3	Sino-European transcontinental basic and clinical high-tech acupuncture studies, part 1: Auricular acupuncture increases heart rate variability in anesthetized rats	30
3.1	Introduction	30
3.2	Materials and methods	30
3.2.1	Animals	30
3.2.2	Electrocardiographic monitoring	31
3.2.3	Acupuncture stimulation and procedure	32
3.2.4	Statistical analysis	33
3.3	Results	33
3.4	Discussion	36
3.5	Conclusions	39
3.6	Acknowledgments	40
3.7	References	40

4	Sino-European transcontinental basic and clinical high-tech acupuncture studies, part 2: Acute stimulation effects on heart rate and its variability in patients with insomnia	43
4.1	Introduction	43
4.2	Materials and methods	43
4.2.1	Patients	43
4.2.2	Electrocardiographic monitoring	44
4.2.3	Acupuncture stimulation and procedure	44
4.2.4	Statistical analysis	46
4.3	Results	46
4.4	Discussion	49
4.5	Conclusions	51
4.6	Acknowledgments	51
4.7	References	52
5	Biomedical teleacupuncture between China and Austria using heart rate variability, part 2: Patients with depression	54
5.1	Introduction	54
5.2	Subjects and methods	54
5.2.1	Patients	54
5.2.2	Biosignal recording in Asia and data analysis in Europe	55
5.2.3	Clinical acupuncture and procedure	55
5.2.4	Statistical analysis	57
5.3	Results	57
5.4	Discussion	59
5.5	Acknowledgments	61
5.6	References	61
6	Sino-European transcontinental basic and clinical high-tech acupuncture studies, part 3: Violet laser stimulation in anesthetized rats	64
6.1	Introduction	64
6.2	Animals and methods	64
6.2.1	Sprague-Dawley rats and blood pressure monitoring	64
6.2.2	Electrocardiographic monitoring in rats	65
6.2.3	Violet laser stimulation and procedure	65
6.2.4	Statistical analysis	67
6.3	Results	67
6.4	Discussion	74
6.5	Conclusions	75
6.6	Acknowledgments	76
6.7	References	76

7	Sino-European transcontinental basic and clinical high-tech acupuncture studies, part 4: ‘Fire of Life’ analysis of heart rate variability during acupuncture in clinical studies	79
7.1	Introduction	79
7.2	Materials and methods	80
7.2.1	HRV monitoring	80
7.2.2	HRV data analysis	80
7.2.3	Patients	81
7.2.4	Procedure	81
7.2.5	Acupuncture points	82
7.3	Results	82
7.3.1	Standard analysis	82
7.3.2	HRV-scatterplots	84
7.3.3	HRV – frequency domain (‘Fire of Life’ analysis)	86
7.4	Discussion	87
7.5	Conclusions	88
7.6	Acknowledgments	88
7.7	References	89
8	A transcontinental pilot study for acupuncture lifting-thrusting and twisting-rotating manipulations	92
8.1	Introduction and background	92
8.1.1	Research objective	93
8.2	Methods	93
8.2.1	Healthy volunteers	93
8.2.2	Acupuncture operations	93
	Lifting-thrusting	93
	Twisting-rotating	94
8.2.3	Instruments and measurement methods	94
8.2.4	Statistical analysis	96
8.3	Results	96
8.3.1	Influence of BP and HR caused by different needling manipulations	96
8.3.2	Influence of different needling manipulations on skin microvascular perfusion on the acupoint and its corresponding area	97
8.3.3	Influence of different needling manipulations on HRV	98
8.3.4	Needling sensation caused by different needling manipulations	98
8.4	Discussion	100
8.5	Conclusion	100
8.6	Acknowledgments	101
8.7	References	101

9	Ear acupressure, heart rate, and heart rate variability in patients with insomnia	103
9.1	Introduction	103
9.2	Materials and methods	103
9.2.1	Patients	103
9.2.2	Electrocardiographic monitoring	104
9.2.3	Ear acupressure stimulation and procedure	104
9.2.4	Statistical analysis	106
9.3	Results	106
9.4	Discussion	108
9.5	Conclusions	110
9.6	Acknowledgments	110
9.7	References	110
10	Intravenous laser blood irradiation, interstitial laser acupuncture, and electroacupuncture in an animal experimental setting: Preliminary results from heart rate variability and electrocorticographic recordings	112
10.1	Introduction	112
10.2	Animals and methods	113
10.2.1	Sprague-Dawley rats	113
10.2.2	Intravenous laser irradiation	113
10.2.3	Interstitial laser acupuncture	114
10.2.4	Electroacupuncture	114
10.2.5	Procedure	114
10.2.6	Measurement parameters	115
10.2.7	Statistical analysis	115
10.3	Results	115
10.4	Discussion	119
10.5	Conclusions	121
10.6	Acknowledgments	121
10.7	References	122
11	Effects of acupuncture on heart rate variability in beagles; Preliminary results	125
11.1	Introduction	125
11.2	Materials and methods	125
11.2.1	Animals	125
11.2.2	Electrocardiographic monitoring	125
11.2.3	Acupuncture stimulation, drugs, and procedure	126
11.2.4	Statistical analysis	127
11.3	Results	127
11.4	Discussion	128

11.5	Conclusions	130
11.6	Acknowledgments	130
11.7	References	130
12	Laser acupuncture: Two acupoints (Baihui, Neiguan) and two modalities of laser (658 nm, 405 nm) induce different effects in neurovegetative parameters	133
12.1	Introduction	133
12.2	Materials and methods	133
12.2.1	Stimulation methods	133
	Manual needle acupuncture	133
	Red laser	134
	Violet laser	135
12.2.2	Neurovegetative monitoring	135
12.2.3	Volunteers	135
12.2.4	Acupuncture points	136
12.2.5	Measurement procedure	136
12.2.6	Statistical analysis	137
12.3	Results	137
12.4	Discussion	139
12.5	Conclusions	141
12.6	Acknowledgments	141
12.7	References	141
13	Improvement of the dynamic responses of heart rate variability patterns after needle and laser acupuncture treatment in patients with burnout syndrome: A transcontinental comparative study	146
13.1	Introduction	146
13.2	Patients and methods	147
13.2.1	Patients	147
13.2.2	Teleacupuncture between China and Europe	148
13.2.3	Needle and laser acupuncture and procedure	148
13.2.4	Statistical analysis	151
13.3	Results	151
13.4	Discussion	155
13.5	Acknowledgments	156
13.6	References	156
14	Continuous auricular electroacupuncture can significantly improve heart rate variability and clinical scores in patients with depression: First results from a transcontinental study	158
14.1	Introduction	158
14.2	Subjects and methods	159

14.2.1	Patients	159
14.2.2	Biosignal recording in China and data analysis in Europe	159
14.2.3	Auricular electroacupuncture (punctual stimulation) and procedure	160
14.2.4	Statistical analysis	162
14.3	Results	162
14.4	Discussion	166
14.5	Acknowledgments	167
14.6	References	167
15	Effectiveness of interstitial laser acupuncture depends upon dosage: Experimental results from electrocardiographic and electrocorticographic recordings	171
15.1	Introduction	171
15.2	Animals and methods	172
15.2.1	Sprague-Dawley rats	172
15.2.2	Interstitial laser acupuncture	172
15.2.3	Procedure	173
15.2.4	Measurement parameters	173
15.2.5	Statistical analysis	173
15.3	Results	174
15.4	Discussion	176
15.5	Acknowledgments	178
15.6	References	178
16	Manual acupuncture and laser acupuncture for autonomic regulations in rats: Observation on heart rate variability and gastric motility	180
16.1	Introduction	180
16.2	Animals and methods	181
16.2.1	Animal preparation	181
16.2.2	Gastric motility recording	181
16.2.3	Electrocardiographic monitoring	182
16.2.4	Stimulation	182
	Laser acupuncture	182
	Manual acupuncture	182
16.2.5	Statistical analysis	182
16.3	Results	183
16.3.1	Gastric motility under resting condition	183
16.3.2	Effects of MA and LA on gastric motility induced by different acupoints	183
16.3.3	Effects of MA and LA at different acupoints on HRV	185
16.4	Discussion	186

16.5	Conclusion	188
16.6	Acknowledgments	188
